## Care Management

*Care management is an important service that includes coordinating care and services that will help you deliver on the goals you identified in your Care Plan. Every Home Care Package, including those being self-managed will require some level of care management.*

Approach to care management		Christian Homes Tasmania Inc. values consumer directed care, therefore we will talk to you about every aspect of your package to ensure you are receiving the services you want. Our Client Services Coordinator will visit you in your home and develop a support plan tailored to your needs. We will explore other Health Professional options such as physiotherapist, occupational therapists, dieticians and registered nursing as required. You will be asked to let us know of your preferred days and times of visits along with any other preferences related to cultural or social needs to ensure we meet your requests with a suitable care worker. The Clients Services Coordinator will oversee the care management of your package by way of regular three monthly review of your agreed plans to ensure their relevance as your needs may change. These reviews can be face to face or over the telephone depending on your individual support needs.
